

# SAIL INTO FREEDOM

[Verse 1]

Out on the water where the wind takes me,  
With my friends by my side, we sail wild and free.  
The sun's shining bright, reflecting our dreams,  
In the rhythm of the waves, life's as good as it seems.

[Chorus]

Sailing into freedom, we're chasing the tide,  
With every sunset, we know we can't hide.  
Adventures await us in the deep and the blue,  
With laughter and love, we'll see it all through.

[Verse 2]

Got our old sailboat patched up, ready to roam,  
With stories to tell, these waters feel like home.  
From the shore to the horizon, we'll follow our hearts,  
With each gust of wind, a new journey starts.

[Chorus]

Sailing into freedom, we're chasing the tide,  
With every sunset, we know we can't hide.  
Adventures await us in the deep and the blue,  
With laughter and love, we'll see it all through.

[Bridge]

Just me and my buddies, under the sky so vast,  
Creating the memories that'll forever last.  
With a cooler full of dreams and a heart full of hope,  
On this journey together, we'll learn how to cope.

[Verse 3]

Through storms and through sunshine, we're weatherin' it right,  
The bond that we share shines through every night.  
As the stars fill the canvas, we cast our fears aside,  
With freedom in our sails, we feel so alive.

[Chorus]

Sailing into freedom, we're chasing the tide,  
With every sunset, we know we can't hide.  
Adventures await us in the deep and the blue,  
With laughter and love, we'll see it all through.

[Outro]

So here's to the moments, the laughter, and cheer,  
With my mates on this boat, there's nothing to fear.  
As we sail into freedom, we'll live for today,  
With the wind in our sails, we'll find our own way.
